Statement on election integrity from the Winfield Township Democratic Candidates

March 6, 2021

1. We would not issue a taxpayer supported newsletter during a township election campaign (from the caucus to election day.)
2. We would not support taxpayer supported legal fees in association with a lawsuit for or against any candidate for township office.
3. We would recuse ourselves from any Township electoral board, called in response to an objection of any candidacy, that directly or indirectly affected any potential opponent on the ballot.
4. We would encourage and be helpful to any candidate for township office, whether they were Democratic, Republican or Independent. We would explain election procedures to the best of our ability to any resident of Winfield Township.
5. We will feature openness and accountability in our approach to all issues, so that during election time our high standards will be self-evident.
6. Whether they vote for us or not, we urge everyone to vote in the April 6 election and in every election. Whether people vote by mail, in an early voting site or on election day, everyone's vote should count.
